Physics - Viewpoint: What's Inside a Black Hole's Horizon? Andreas Karch is a Professor of Physics at the University of Washington in Seattle and a member of the particle theory group. His main research interest is the study of strongly interacting systems, mostly using string theory, and in particular, holography, as his tool. Black Holes Have No Interior Singularities - viXra 2 Black Holes Have No Interior Singularities Abstract The paper describes a simple solution based on a relativistic extension of Newton-Galileo physics to Psychological Effects Of Color In Interior Design Black, in interior design theory, is always used in small amounts with contrasting, complementary colors. When used right, it can add depth and timeless elegance to a room. Avoid using black in large quantities as it can seem oppressive. The Psychology of Color for Interior Design – Interior ... If you use it in a smart way, black gives an elegant and sophisticated air to interior design. If it is put on a light or neutral background color, everything which is black will stand out. Black color is ideal to bring out certain things in a room. Most people associate black with death, mourning, widowhood, and generally with formal and serious occasions. In conclusion, do not use too much ...
